

Lithium Power für Ihre Karriere

AMG Lithium is a subsidiary and part of the AMG Clean Energy Materials division of AMG Advanced Metallurgical Group N.V., a globally operating group for rare metals, mineral products and highly specialised vacuum furnace systems including related services with over 3,300 employees and annual sales of over US\$ 1 billion.

AMG Lithium combines extensive Lithium expertise in Research & Development, Production, and Marketing with a reliable and secure raw material base from mining in Brazil. We strive to offer our customers from the European Battery Industry innovative and high-quality battery materials. Besides quality and reliability, we focus on sustainable products and processes to minimize the carbon footprint for our customers and ourselves.

Be part of our success story right from the start.

We are looking for the next possible date for our headquarters in Frankfurt am Main for a

Lithium Procurement Specialist (m/w/div.)

Full-time (40h/week)

Job description:

- International procurement of lithium raw materials
- Supervising the ordering process from enquiry to settlement
- Negotiate medium and long-term agreements with existing and future producers and suppliers
- Developing and building partnerships and relationships with producers and strategic partners
- Conduct market analysis and monitor market developments and their impact on raw material strategy
- Work closely with technical departments on material specification, pricing/purchasing strategies and purchasing requirements

Job qualification:

- You have a successfully completed degree in the field of engineering or procurement
- You have several years of professional experience in purchasing and with processes of the lithium value chain as well as in trading with lithium resources
- Good knowledge of contract management
- Very good knowledge of German and English and willingness to travel to national and international destinations
- Independence, social skills, resilience and flexibility
- You have a hands-on mentality, a high level of self-motivation and strong negotiating skills

What we offer:

- A varied and attractive workplace, equipped with state-of-the-art hardware and software, with a lot of creative freedom in a highly motivated team
- Participation in a successful and growing group of companies
- Flat hierarchies, fast decision-making processes and communication at eye level
- Flexible working hours, a performance-related salary and additional company benefits
