

# Lithium Power für Ihre Karriere

AMG Lithium is a subsidiary and part of the AMG Clean Energy Materials division of AMG Critical Materials N.V., a globally operating group for rare metals, mineral products and highly specialised vacuum furnace systems including related services with over 3,300 employees and growing annual sales of over US\$ 1 billion.

AMG Lithium combines extensive Lithium expertise in Research & Development, Production, and Marketing with a reliable and secure raw material base from mining in Brazil. We strive to offer our customers from the European Battery Industry innovative and high-quality battery materials. Besides quality and reliability, we focus on sustainable products and processes to minimize the carbon footprint for our customers and ourselves.

**Be part of our success story right from the start.**

We are looking for a

## Lithium Procurement Specialist

Full-time (40h/week)

### Role responsibilities:

- International procurement of lithium raw materials, incl. supervising the ordering process from enquiry to settlement
- Negotiate tolling agreements to supply the required scope of material for Lithium plant in Bitterfeld in time.
- Accountable and responsible for developing strong relationships and strategic corporations with suppliers.
- Negotiating medium and long-term agreements with Key Stakeholders of existing and future suppliers.
- Monitor market developments, conduct market analysis with attention to risks impacting our raw material strategy.
- Work closely with Product Development Team on material specification and pricing- /purchasing strategies.
- Coordination with the global Supply Chain and Logistics Manager on lithium raw material inventories/requirements

### Job qualification:

- Excellent degree in the field of engineering or procurement with several years of professional experience in a purchasing or similar position, ideally familiar with lithium, well connected with good relationships across industry.
- Ability to combine a short term, pragmatic focus with longer term planning, to support and execute the procurement strategy.
- Global business and market awareness/understanding.
- In-depth knowledge of preparing and reviewing contracts / negotiation terms.
- Analytical and critical thinking as well entrepreneurial skills.
- An excellent communicator who can communicate complex ideas to key stakeholders to influence resilient partnerships – fluent in German and English.
- An individual who is resilient, energetic, and enthusiastic, responding constructively to new ideas.
- Results driven with problem-solving attitude & strong team and corporation skills.
- Open to travel to national and international destinations.

### What we offer:

- A varied and attractive workplace, with a lot of creative freedom and responsibility in a highly motivated team
- Integration in a successful and growing group of companies
- Flat hierarchies, fast decision-making processes and communication at eye level
- Flexible working hours, a performance-related salary and additional company benefits
